

Installation Guide

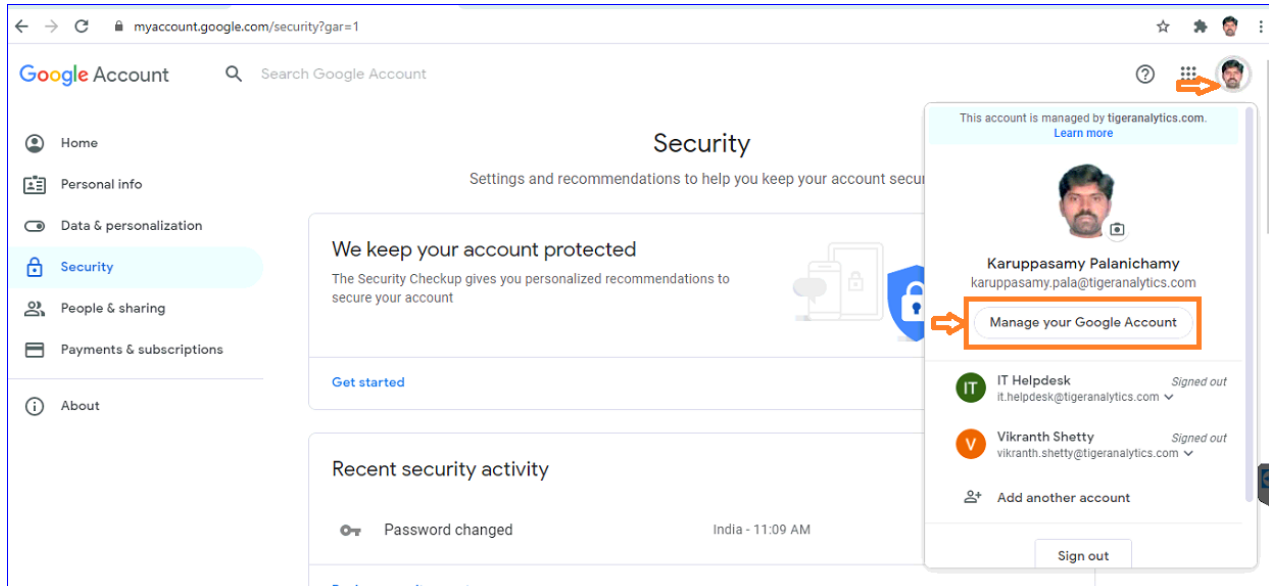

Multifactor Authentication or 2 Step Verification

Installation Steps

The current phase, we are preparing to set up MFA and SSO. The completion of these steps will enable us to configure Single Sign-On for all Tiger Laptops. Stronger security for your Google Account With 2-Step Verification, you'll protect your account with both your password and your phone.

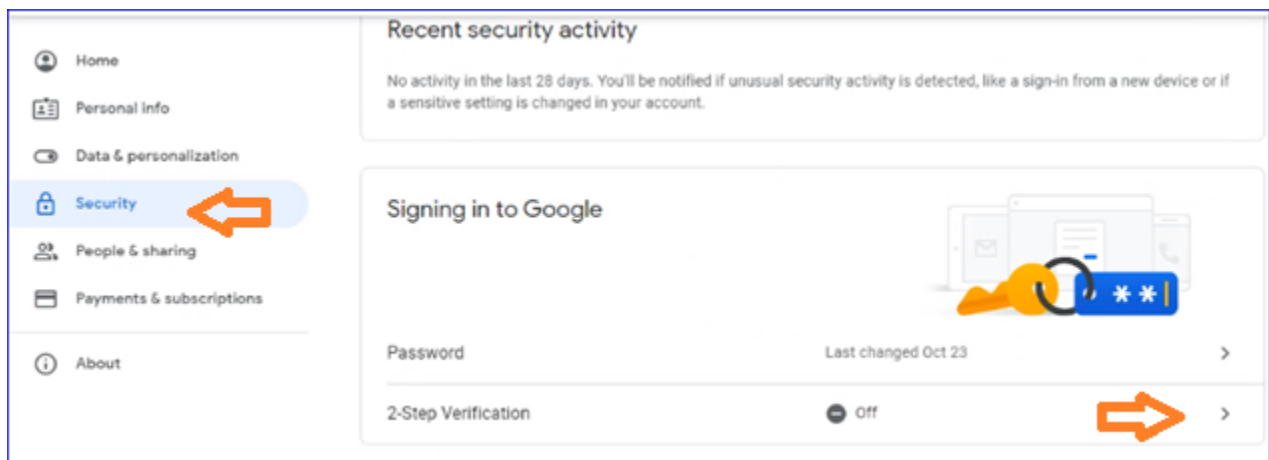

STEP:1

Click your profile and select “Manage your Google Account”.

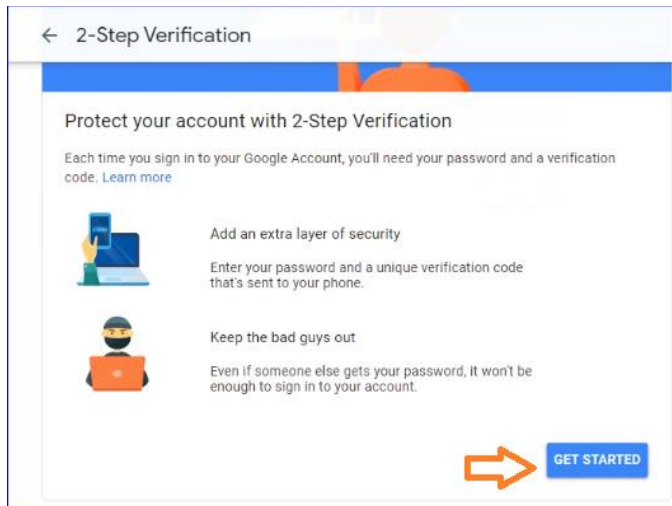

STEP:2

Click security from left side and then click “2-step verification” available at right side.

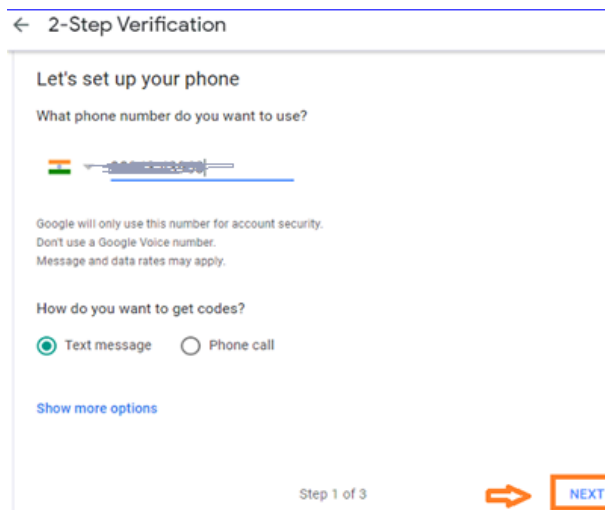

STEP:3

Click get started.

STEP:4

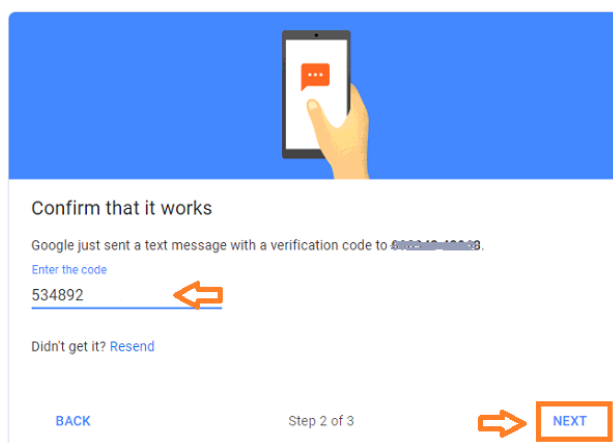

Enter your Mobile number and select any of the 2-options Text message or Phone call for one-time verification and click next.

STEP:4

You will receive code through text or voice call based on the above selection, enter the code and click next.

← 2-Step Verification

Confirm that it works

Google just sent a text message with a verification code to 900-10-10000.

[Enter the code](#)

Didn't get it? [Resend](#)

[BACK](#) Step 2 of 3 [NEXT](#)

STEP:5

Once code has been verified, you will see the below screen and click Turn ON to enable 2 step verification.

← 2-Step Verification

It worked! Turn on 2-Step Verification?

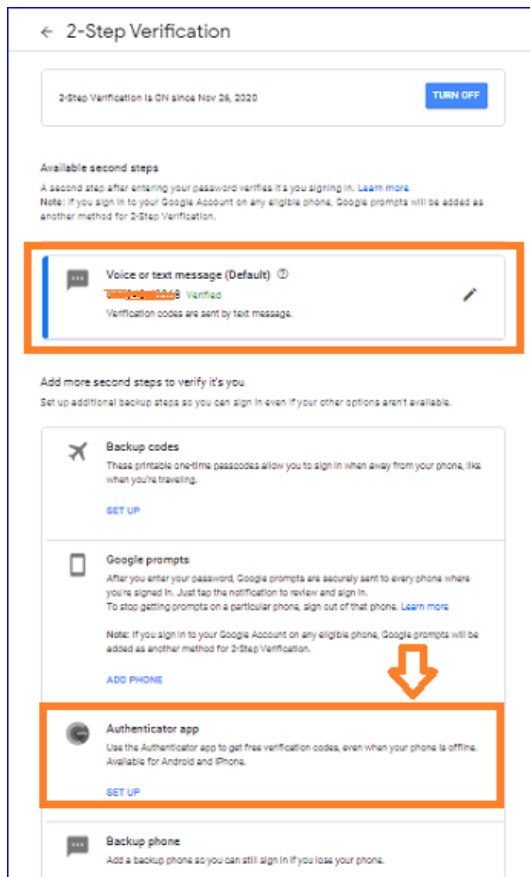

Now that you've seen how it works, do you want to turn on 2-Step Verification for your Google Account tigeranalytics.com?

Step 3 of 3 [TURN ON](#)

STEP:6

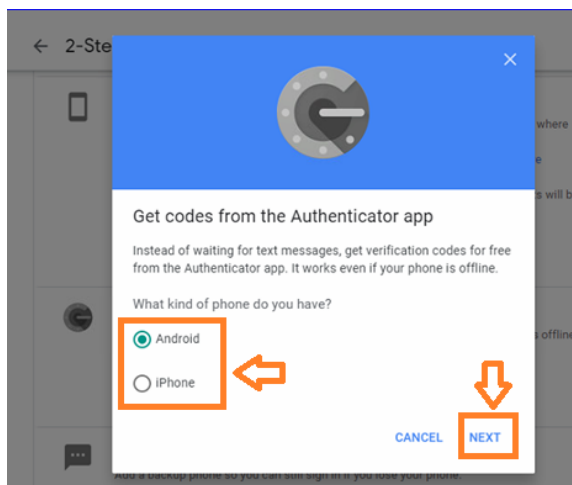

Once mobile number has been verified, you will see the below screen and click “Authenticator app” to enable 2 step verification based on mobile application.

Please don't click other options, others will need network connection to get authenticated.

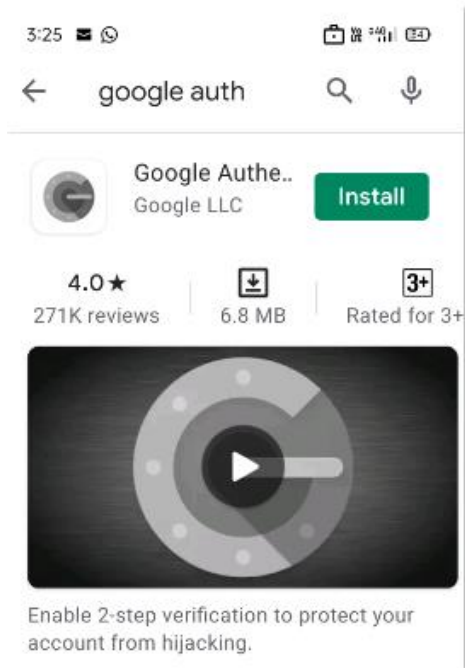

STEP:7

Please select below 2 options based on your mobile device and click next.

STEP:8

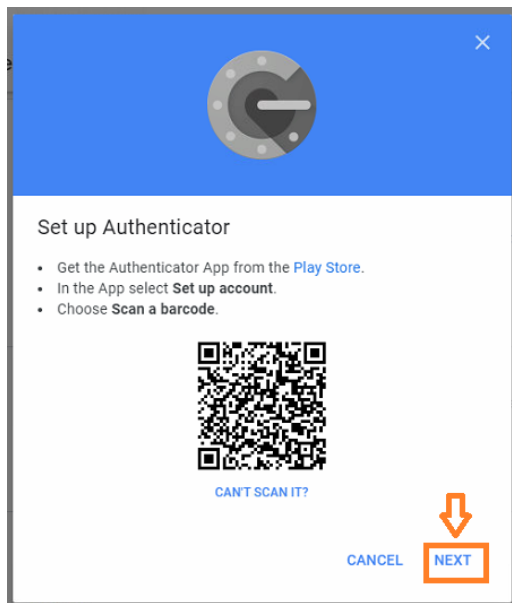

Please download the Google Authenticator app from play store (Android or IOS).

Recommended to install this Authenticator App in the mobile where you got the device approval to access GSuite applications. In future, if you happened to change your mobile number or device, same to be informed to IT for re-enrol this MFA for getting GSuite access.

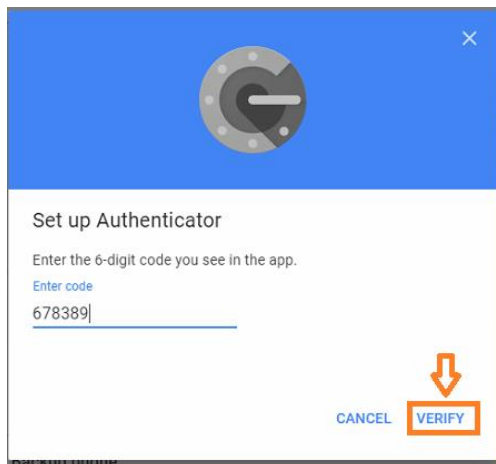

STEP:9

Please open your Authenticator app from your mobile and click get started and scan the QR code displayed in your GSuite account and click next.

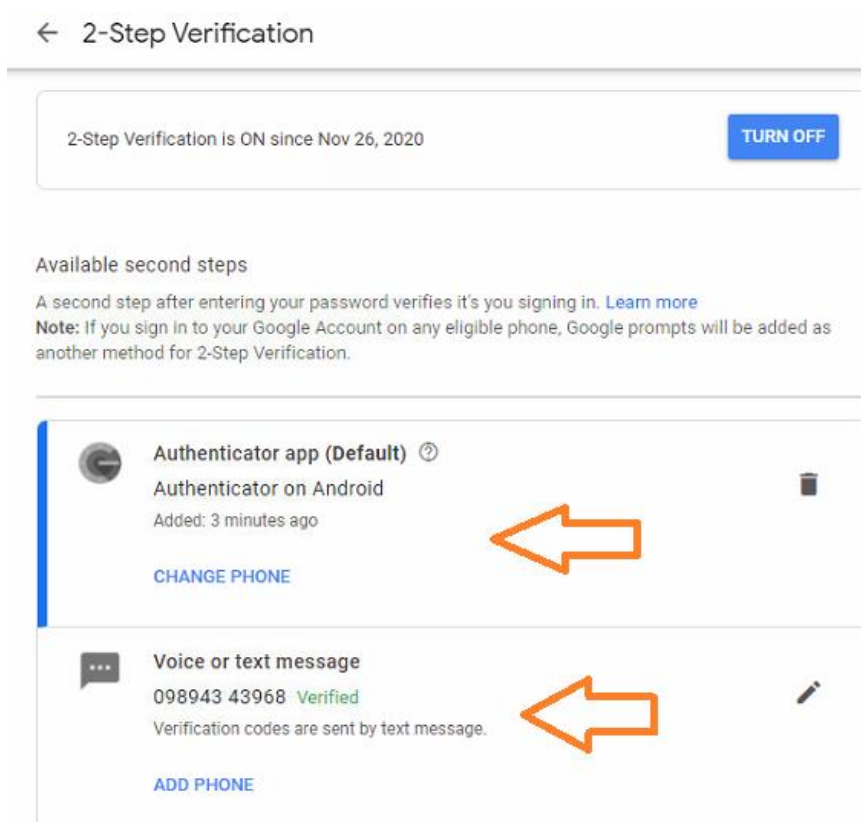

STEP:10

Please enter the 6-digit code generated in phone and Click verify to Sync the code between Phone and GSuite and then click done to complete the 2-step verification.

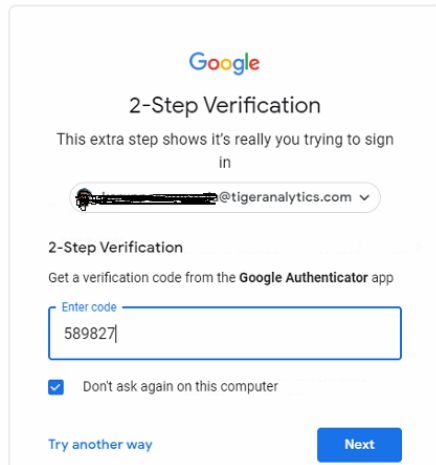

STEP:11

Make ensure your GSuite account is enabled with MFA as below.

STEP:12

After completing 10 steps, please sign out your account and login again with your Password and 6-digit code generated at your Mobile.

A screenshot of the Google 2-Step Verification interface. At the top is the Google logo. Below it, the text "2-Step Verification" is displayed. A message states: "This extra step shows it's really you trying to sign in". Below this is a dropdown menu showing an email address ending in "@tigeranalytics.com". Another "2-Step Verification" heading is followed by the instruction: "Get a verification code from the Google Authenticator app". A text input field labeled "Enter code" contains the number "589827". Below the input field is a checkbox labeled "Don't ask again on this computer" which is checked. At the bottom left is a link "Try another way" and at the bottom right is a blue "Next" button.
